

Family and Child Information

Please help us get to know your child by describing them below.

Allergies (please ask staff for a separate more detailed form if your child has allergies)

Eating

Sleeping

Toilet Habits

Daily Activities

Fears

Likes/Dislikes

Habits

Favorites

Tell us a little about where your child is developmentally

What other information should we be aware of to care for your child as an individual? Events at home often influence your child's behavior. Knowing about these things allows us to give special attention, understanding, and care. The information you give will remain confidential.

Culture, diversity, and environment are a key part of Montessori philosophy, as well as community and individuality. We would like to learn about your family so that we can incorporate important cultural pieces into our curriculum and also assess the relationships we might be able to create in our Montessori community. Please remember, no answer is too small. We all serve a great purpose in our families and communities and all things we do have value and meaning.

What are your ethnic backgrounds and countries of origin?

What family/cultural traditions are important to you and your child?

What family/cultural values are important to you and your child?

What are some of your community assets? Meaning places within the community that you use or serve on a regular basis, such as a cultural or religious center, special group, volunteering, etc.

Please list any occupations, talents, or hobbies that you have.

Would you be interested in sharing with your child's class or with staff to foster a better community connection with our families? _____
